

Process evidence faster and close cases sooner with OpenText™ EnCase™

Digital forensic investigators are overwhelmed with **cases to investigate**, places to look for evidence and digital evidence to sift through.

Digital forensic tools that empower investigators to work faster and more efficiently help **reduce frustration**, **achieve better results** and **come to conclusions sooner**.

This increased efficiency also **reduces impacts to budgets**.

33% faster

than its closest competitor in OpenText testing

75% faster

than a competing tool in user testing

69% faster

than previous version
EnCase LEF creation speed (from evidence)

Turn to **OpenText™ EnCase™ Forensic** and **OpenText™ EnCase™ Endpoint Investigator** for superior evidence processing speed.
