Additional License Authorizations

For Adoption Readiness Tool software products

This Additional License Authorizations document ("ALA") set forth the applicable License Options and additional specific software license terms that govern the authorized use of the software products specified below, and are part of the applicable agreement (i.e., Micro Focus End User License Agreement; and/or any separate agreement that grants Licensee a license to such products (e.g., Customer Portfolio Terms or other Master Agreement); and/or Quotation) (the "Applicable Agreement"). Capitalized terms used but not defined herein shall have the meanings set forth in the Applicable Agreement. All products below are delivered electronically, unless otherwise agreed, and as such, any inconsistent terms that are stated on a purchase order or any other document issued by Customer, are void.

Capitalized terms not otherwise defined in this ALA document are defined in the governing agreement.

Term	Definition
ART Enterprise *or* ART Ent	Means a license which allows Unlimited users of the content within your legal entity.
Course	Means a learning module created and owned by Micro Focus.
Internal Use	Means access and Use of the software for purposes of supporting your internal operations or functions.
LTU	Means License To Use.
Named User	Means a specific individual authorized by you to access the software regardless of whether they are actively using the software.
Publish	Means to produce content in a format that can be made available for Use.

Term	Definition
Unlimited *or* Unl	Means without restrictions in terms of number of systems, devices or media, depending on the context.
Use	Means to install, store, load, execute and display one copy of the software.

Software Specific License Terms

Software products with software specific license terms are described below. Software products covered by this ALA document (as listed above) and not covered in this section do not have software specific license terms.

Adoption Readiness Tool (ART) Courses

ART Courses as described above contain two main deliverables: Published content and source content.

- The Published content includes Course modules, simulations, documents and a website template for deployment of content to Named Users.

- The source content includes the material that was used to create the Published content.

An ART Course license grants the right to use the Course only in conjunction with the ART Named User license.

Adoption Readiness Tool (ART) Enterprise Learning Edition (ELE) Named Users

An ART Enterprise Learning Edition Named User license allows You to a) view/read/consume Published ART ELE content b) create, manipulate, modify and Publish the source content of the ART ELE Course or a non-Micro Focus Branded course c) Publish additional outputs from the source content. (These outputs, which are not included in the Published source content, include test scripts, course packages for a Learning Management System (LMS) upload and student guides) of the ART ELE Course or a non-Micro Focus Branded course.

The quantity of ART ELE Named Users purchased at a minimum must be equal to the number of users who will be viewing ART ELE content, including developers who will customize or create content. The only exception is ART ELE Named User 25001+/50 Pack, which allows up to 250,000 users for single order purchase.

Adoption Readiness Tool (ART) Named Users

An ART Named User license allows You to a) view/read/consume Published ART content b) create, manipulate, modify and Publish the source content of the ART Course or a non-Micro Focus Branded course c) Publish additional outputs from the source content. (These outputs, which are not included in the Published source content, include test scripts, course packages for Learning Management System (LMS) upload and student guides) of the ART Course or a non-Micro Focus Branded course.
The quantity of ART Named Users purchased at a minimum must be equal to the number of users who will be viewing ART content, including developers who will customize or create content.

Other Adoption Readiness Tool (ART) Software

Only for those licenses previously purchased as ART Course Enterprise (Ent) and/or ART Author DevKit, the following terms apply:

Adoption Readiness Tool (ART) Enterprise Learning Edition (ELE) Author Dev Kit
Adoption Readiness Tool Enterprise Learning Edition Author Dev Kit is licensed on a Named User basis. Each developer will be considered a Named User and the   quantity of Adoption Readiness Tool Enterprise Learning Edition Author Dev Kits purchased at a minimum must be equal to the number of developers who will be using the Software to customize or create content. The Adoption Readiness Tool Enterprise Learning Edition Author Dev Kit can be used to manipulate, modify and Publish ART Course content purchased from Micro Focus and can also be used to create content on other topics and third-party applications.

Adoption Readiness Tool (ART) Author Dev Kit

Adoption Readiness Tool Author Dev Kit is licensed on a Named User basis. Each developer will be considered a Named User and the quantity of Adoption Readiness Tool Author Dev Kits purchased at a minimum must be equal to the number of developers who will be using the Software to customize or create content. The Adoption Readiness Tool Author Dev Kit can be used to manipulate, modify and Publish ART Course content purchased from Micro Focus and can also be used to create content on other topics and third-party applications.

ART Enterprise Courses

Adoption Readiness Tool Enterprise Courses are licensed on an ART Enterprise basis. Each of these software products contain two main deliverables: published content and source content.

- The Published content includes course modules, simulations, documents and a website template for deployment of content to internal users.

- The source content includes the material that was used to create the Published content. An Adoption Readiness Tool Author Dev Kit is required in order to manipulate, modify and Publish the source content. With the Adoption Readiness Tool Author Dev Kit, additional outputs can be Published (by you) from the source content. These outputs, which are not included in the Published source content, include test scripts, course packages for Learning Management System (LMS) upload and student guides.
