
Additional License Authorizations

For AppManager software products

Additional License Authorizations

For AppManager software products

This Additional License Authorizations (“ALA”) sets forth the applicable License Options and additional specific software license terms that govern the authorized use of the software products specified below, and are part of the applicable Micro Focus End User License Agreement (“EULA”) and/or any separate agreement that grants Licensee a license to such products (i.e., Customer Portfolio Terms or other Master Agreement and/or Quotation) (“Applicable Agreement”). The EULA, and/or the Applicable Agreement, if such agreement exists, shall be known as the Governing Agreement. Capitalized terms used but not defined herein shall have the meanings set forth in the Governing Agreement. All products below are delivered electronically, unless otherwise agreed, and as such, any inconsistent terms that are stated on a purchase order or any other document issued by Customer, are void.

Products covered

Products	Non-production software class *	Term License Non-production software class (if available)
Analysis Center	Class 3	Class 3
AppManager	Class 3	Class 3
AppManager Unix Agent	Class 3	Class 3
Operations Center	Class 3	Class 3
Vivinet Assessor	Class 3	Class 3

*Additional licenses solely for non-production use may be available as specified in the Non-Production Licensing Guide found at opentext.com/about/legal/software-licensing depending on the non-production software class specified above. Any such non-production licenses will be subject to the Non-Production Licensing Guide and the applicable License Option terms and conditions set forth in this ALA.

Definitions

Term	Definition
Device	Means any non-Server, non-user, network-addressable object, including, without limitation, a phone, switch, router, gateway or other similar object. Softphones and traditional telephones representing the same extension count as only one Device.
Manage	Means to monitor, and act upon information received, and to report upon such information and actions, as such functions may be supported in the Licensed Software.
Managed Object	Means either a Device, Server or User as specified in the product documentation.
Monitor	Means to receive information about, either directly or indirectly.
Server	Means a single physical machine, or a virtual machine, or instance of a server operating system, or a remote machine instance residing on any public/private cloud infrastructure.
User	Means a user object in a single directory tree (or other class of object that contains data representing a person, such as objects containing credit card information or PIN numbers) that has (a) access or use rights to any portion of the Licensed Software, or (b) access or use rights to products (Devices, hardware, or software) being Managed by the Licensed Software, regardless of whether the user object is assigned to a person or Device. User objects (or other classes of objects) representing the same person that are linked to each other within a single tree and/or linked across multiple trees count as only one User.

License Options

The following License Options are the types of licenses available for a given software product as further specified in this ALA. The applicable License Option for a license shall be as set forth in the Applicable Agreement or Product Order. Those products with only one License Option available shall be governed by such License Option whether or not stated in the Applicable Agreement or Product Order unless otherwise agreed in writing between Licensee and Licensor.

Infrastructure Monitoring License

Licensed Software provided under this License Option gives Licensee the right to use the Licensed Software to Monitor one or more Server(s), expressly authorized by Licensor in the Product Order for such license for whom Licensee has paid the applicable license fee. A license is required for each instance of the Licensed Software stored, loaded or accessed on any physical, virtual or remote Server, regardless of whether an agent is installed. This License cannot be deployed beyond the count of Server(s) in the Product Order without the Licensor's prior written consent. The manner of calculating the type and number of Servers for which a license is needed shall be determined by Licensor based on Licensee's configuration and operation of the Licensed Software, unless otherwise agreed in an Applicable Agreement.

OS Specific - Infrastructure Monitoring License

Licensed Software provided under this License Option gives Licensee the right to use the Licensed Software to Monitor one or more Server(s) which are running the specified Operating System, expressly authorized by Licensor in the Product Order for such license for whom Licensee has paid the applicable license fee. A license is required for each instance of the Licensed Software stored, loaded or accessed on any physical, virtual or remote Server, regardless of whether an agent is installed. This License cannot be deployed beyond the count of Server(s) and specified Operating System mentioned in the Product Order without the Licensor's prior written consent. The manner of calculating the type and number of Servers for which a license is needed shall be determined by Licensor based on Licensee's configuration and operation of the Licensed Software, unless otherwise agreed in an Applicable Agreement.

Application Monitoring License

Licensed Software provided under this License Option gives Licensee the right to use the Licensed Software to Monitor one or more application(s) installed on one Server, expressly authorized by Licensor in the Product Order for such license for whom Licensee has paid the applicable license fee. Licensee must acquire the number of licenses for the quantity of Servers which host the applications that Licensee wants to Manage or Monitor. Licensee may Monitor and Manage an unlimited number of applications stored, loaded or accessed on such licensed Servers. This License cannot be deployed beyond the count of application(s) in the Product Order without the Licensor's prior written consent. The manner of calculating the type and number of servers for which a license is needed shall be determined by Licensor based on Licensee's configuration and operation of the Licensed Software, unless otherwise agreed in an Applicable Agreement.

Application Specific – Application Monitoring License

Licensed Software provided under this License Option gives Licensee the right to use the Licensed Software to Monitor one or more application(s) installed on one Server which are running the specified application, expressly authorized by Licensor in the Product Order for such license for whom Licensee has paid the applicable license fee. This License cannot be deployed beyond the count of application(s) in the Product Order without the Licensor's prior written consent. The manner of calculating the type and number of Servers for which a license is needed shall be determined by Licensor based on Licensee's configuration and operation of the Licensed Software, unless otherwise agreed in an Applicable Agreement.

VOIP Monitoring License

Licensed Software provided under this License Option gives Licensee the right to use the Licensed Software to Monitor one or more VOIP Device(s), expressly authorized by Licensor in the Product Order for such license for whom Licensee has paid the applicable license fee. This License cannot be deployed beyond the count of application(s) in the Product Order without the Licensor's prior written consent. The manner of calculating the type and number of Devices for which a license is needed shall be determined by Licensor based on Licensee's configuration and operation of the Licensed Software, unless otherwise agreed in an Applicable Agreement.

Reporting and Analytics License

Licensed Software provided under this License Option gives Licensee the right to use the Licensed Software to analyze and report on one or more Server(s) or Device(s), expressly authorized by Licensor in the Product Order for such license for whom Licensee has paid the applicable license fee. Licensee must acquire the number of licenses for the quantity of Managed Objects which Licensee wants to analyze and report. This License cannot be deployed beyond the count of Server(s) or Device(s) in the Product Order without the Licensor's prior written consent. This License requires a separate purchase of Infrastructure Monitoring License as per the Applicable Agreement. The manner of calculating the type and number of Servers and Devices for which a license is needed shall be determined by Licensor based on Licensee's configuration and operation of the Licensed Software, unless otherwise agreed in an Applicable Agreement.

Software Specific Terms

AppManager

The following License Options apply: Infrastructure Monitoring License, OS Specific - Infrastructure Monitoring License, Application Monitoring License, Application Specific – Application Monitoring License, VOIP Monitoring License.

AppManager Unix Agent

The following License Options apply: Infrastructure Monitoring License, OS Specific - Infrastructure Monitoring License.

Analysis Center

The following License Options apply: Infrastructure Monitoring License, OS Specific - Infrastructure Monitoring License, Reporting & Analytics License.

Operations Center

A license for Operations Center gives Licensee the right to use Operations Center to Manage and report on one or more Server(s) or Device(s) or application(s), expressly authorized by Licensor in the Product Order or Applicable Agreement. The manner of calculating the type and number of Servers and Devices for which a license is needed shall be determined by Licensor based on Licensee's configuration and operation of the Licensed Software, unless otherwise agreed in an Applicable Agreement.

Vivinet Assessor

A license for Vivinet Assessor gives Licensee the right to use Vivinet Assessor to Monitor, Manage, and report on one or more Device(s) expressly authorized by Licensor in the Product Order or Applicable Agreement. The manner of calculating the type and number of Devices for which a license is needed shall be determined by Licensor based on Licensee's configuration and operation of the Licensed Software, unless otherwise agreed in an Applicable Agreement.
