ot **opentext**™
Information reimagined

Top 5 innovations
Titanium X Cloud Editions (CE) 25.2

1

OpenText™ Aviator™

Advanced AI capabilities, powered by OpenText business clouds, enable digital knowledge workers across supply chain, HR, finance, procurement, software development, and more.

2

MyAviator

This AI-powered personal assistant will let you convert complex information into rapid and easy-to-understand summaries, briefing documents, or podcasts at the touch of a button.

3

OpenText Data Cloud

Redefining information management in how we assimilate data, reduce resolution time, and increase customer satisfaction.

4

OpenText™ Core Threat Detection & Response

Find the security needle in a haystack with our latest cybersecurity solution and improve the efficiency of SOC by 50%, accuracy from 10% to 80%.

5

OpenText Content Cloud

No more toggling between apps. Our latest release delivers the best integrations with Guidewire, Microsoft 365, SAP, Salesforce, and more—streamlining workflows and supercharging teamwork.

These innovations reflect the OpenText commitment to information management that lets human potential and productivity soar.
